

Eligibility requirements for membership to the SGC Network Affiliate program.

Eligibility for an SGC Network contract requires that a shop meet or exceed the qualifying terms. Namely, that an applicant shop should -

- carry at least \$500,000 in general or commercial liability insurance
- display appropriate signage and a storefront or service vehicle which is professional in appearance (pictures are required for consideration)
- the shop must be in business and active within the SGC Network database as a non-member glass service provider for at least 12 months prior to membership consideration
- provide all photographs, details and documents requested by the application
- meet or exceed a customer service (NPS) score of at least 70
- provide evidence of ongoing training to demonstrate compliance with the American National Standards Institute (ANSI) automotive glass replacement standard.

Applications are reviewed by the National Contract Manager and may take 7-14 days to complete the review process. If your shop has not been active in the SGC Network database for at least 12 months, your application will not be reviewed and you will need to re-apply at the end of one year.

Thank you,

- SGC Network Team
